Docket No.: 21295/17 (102847-30)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

APPLICANT: Werner Knebel and Joachim Bradl

EXAMINER: Allen, Stephone B.

GROUP ART UNIT: 2878

SERIAL NO.: 09/681,019

CONFIRMATION NO: 8722

FILED: November 28, 2000

FOR: *Method for Optical-Light Scanning of a Specimen; and Scanning
Microscope for Scanning a Specimen*

CERTIFICATE OF MAILING

I hereby certify that this paper (along with any paper referred to as being attached or enclosed) is being deposited with the United States Postal Service on the date shown below with sufficient postage as first class mail in an envelope addressed to: Office of Initial Patent Examination, Customer Service Center, Assistant Commissioner for Patents, Washington D.C. 20231 on:

REQUEST FOR CORRECTION OF FILING RECEIPT

Sir:

Two errors were noted on the Official Filing Receipt for the above-referenced Patent Application as follows:

IND Claims

3 should be 2

-2-

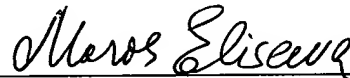

Foreign Applications:

Should read:

This Application claims priority from German Application DE 199 57 418.9 filed on November 29, 1999.

A copy of the filing receipt with corrections noted in red is enclosed. The continuity data was provided in the "Related Applications" paragraph of the specification (copy attached) and the priority date was provided in the Application Data Sheet (the serial number was cut off when submitted electronically – see attached). The priority document was filed on January 3, 2001. Kindly correct the error and issue a corrected filing receipt.

Respectfully submitted,

Maria M. Eliseeva

FILING RECEIPT

OC000000005736598

Date Mailed: 02/05/2001

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the PTO processes the reply to the Notice, the PTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

If Required, Foreign Filing License Granted 02/05/2001

Title

Method for optical-light scanning of a specimen; and scanning microscope for scanning a specimen

Preliminary Class

356

Data entry by : WILLIAMS, THERESA

Team : OIPE

Date: 02/05/2001

LICENSE FOR FOREIGN FILING UNDER
Titl 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:

METHOD FOR OPTICAL-LIGHT SCANNING OF A SPECIMEN; AND SCANNING MICROSCOPE FOR SCANNING A SPECIMEN

Cross Reference to Related Applications

This invention claims priority of a German patent application DE-199 57 418.9 which is incorporated by reference herein.

Background of Invention

[0001] The present invention refers to a method for optical-light scanning of a specimen, preferably in scanning microscopy, in particular in confocal laser scanning microscopy, the intensity of the light being regulated. The invention furthermore concerns a scanning microscope for scanning a specimen whereby light intensity regulation is applied. Methods of the generic type are used in a number of fields, light intensity regulation serving principally to make available a light source having a constant light intensity regardless of time. A constant light intensity is a prerequisite for quantitative investigations.

[0002] In the presence of a low signal-to-noise ratio, in particular in confocal fluorescent laser scanning microscopy, the "auto-gain" method is utilized. Purely by way of example, reference is made to US Patent 4,412,246, which describes, per se, a method for adapting a polarization or interference video microscope system using an auto-gain method. In the auto-gain method the gain of the detectors, for example of photomultipliers, is adapted, during data recording or during optical-light scanning of a specimen, to the dynamic range of the measured signals that is actually present, so that with a constant illumination intensity, the available image information is then
